

AMERICAN TAXPAYERS SHOULDN'T HAVE TO SUBSIDIZE VERIZON'S ATTACK ON MIDDLE-CLASS JOBS.

From 2008-2010, Verizon owed \$11.4 billion in federal taxes— but instead, **it got nearly \$1 billion in tax rebates.**

Verizon could have used those tax savings to create jobs and reach a fair contract with the workers who make it so successful, but **management decided to reward themselves instead.**

VERIZON WORKERS ARE THE 99%. VERIZON MANAGEMENT IS THE 1%.

Call your member of Congress: 877-426-8013. Tell them to support H.R. 2604, to stop subsidizing Verizon's attacks on workers' wages, benefits and job security.
