

THIS IS IT! - NOW OR NEVER!

Congress is shaping health care reform legislation right now!

No other group is able to mobilize like we can. What labor does over the next few weeks will determine whether we win health care reform that:

- Includes a **Public Health Insurance Plan Option**
- Requires all Employers to **Pay or Play**
- Has **NO Taxation of Benefits** - new taxes would hurt working families; costs are crushing us already.
- Controls costs and provides guaranteed coverage for all Americans

Call Senator Reid Today and say:

“We need REAL health care reform which includes a public option, requires all employers to pay or play and has NO taxation of benefits.

Also, we would like our state Senator, Chuck Schumer on the Senate health reform Conference Committee; we trust our Senator to fight for real reform that contains a strong public option and does not tax health care benefits.”
