Workplace Fatality

On Friday, October 26, 2007 a Verizon Splice Service Technician was fatally injured while working on a repair job in Plymouth, Massachusetts.

While the Occupational Safety Health Administration (OSHA) and Verizon Safety Management continue to conduct incident investigations please conduct a “Tailgate” safety meeting to review the following Verizon Safe Work Practices applicable to work operations being conducted in the vicinity of overhead power lines.

Verizon Safety Lesson Plans, Electrical Safety Awareness (OSP Aerial Work), TEDS #YYJS0167

Personal Protective Equipment, TEDS #YYJS0014

VZ SAF 100-006, Verizon Incident Prevention Plan Outside Review Package #6, Unit #3 Electrical Protection
