

CWA/AT&T MOBILITY BENEFITS

BARGAINING REPORT

June 4, 2008

Negotiations opened yesterday in Atlanta, Georgia, with our Bargaining Committee submitting a comprehensive health care proposal to the Company.

District 3 Vice President Noah Savant, speaking on behalf of CWA nationwide, told the Company in opening remarks the Union is hopeful Mobility has come to these negotiations with the intent to reach an agreement that reflects our members' contributions toward making Mobility the number one wireless company in the United States.

At the same time that negotiations began, thousands of CWA members who work at AT&T across the country mobilized to show their support through rallies, informational pickets and by delivering flyers with a message to AT&T management reminding them that when our Bargaining Committee is sitting at this table, they are not sitting alone.

The Company is currently reviewing our proposal and preparing additional relevant data that we have requested.

Bargaining updates will continue to be sent out as there are further developments.
